

LUDICROUS: The USA has NEVER been placed on Trial for WAR and other crimes Against HUMANITY!

Consider the fact that a nation which adheres to a "perpetual war" doctrine, in order to achieve world hegemony, has never appeared before the ICC or has never been charged with war and other crimes against humanity, and that reality after all the exposures of ILLEGAL invasive wars based on LIES and various pretexts, which wars over the past two decades have resulted in millions of innocent deaths and tens of millions more displaced citizens. Now that reality alone makes a mockery of the OBVIOUSLY rigged, politicized, farcical, international courts. It is simply impossible that the USA with its horrendous, exposed record could avoid accountability -- YET IT HAS!!

The only nations that appear before the puppet, thoroughly corrupt, Hague courts are the perceived enemies of America/NATO and damning history records it thus. To say that future generations will look back on this period of history with appalling disdain and questions is understatement -- the acronym WTF!?, applies to the extreme.

Not a glimmer of reprisal, inference of guilt, condemnation, or ANY serious charge has been leveled at the USA -- give the world's population a break! FARCE has become REALITY today. Nevertheless, history records it ALL; the shameless inaction of the world pretending that the world's leading civilian killing nation is somehow crime free.

I need not continue, except to say that the entire western world lives in trance, a media induced stupor, where people like Trump are installed in office to heighten the ABSURDITY of it ALL.

Well people, it's YOUR world/'reality,' I hope you are all proud of your 'achievements,' which amount to passive acceptance of the most heinous state crimes and the most ludicrous period in recorded history!

Be very proud of your 'works,' you shameless, pathetic bastards -- YES, I'm talking to YOU!
