Former CIA Officer and whistleblower Kevin Shipp says what Hillary Clinton did with her charity and Uranium One while she was Secretary of State was a crime for the history books. Shipp explains, "Hillary Clinton used this to launder money in foreign banks so it wasn't subject to U.S. laws, congressional subpoenas or FOIA demands for the evidence. This was done to launder this money globally into the Clinton Foundation so the U.S. government could not examine it at all."

Special Prosecutor Robert Mueller was the head of the FBI while the Uranium One deal was being done by Clinton and the Russians. One fifth of U.S. uranium production was bought by the Russians in a deal Clinton pushed and approved. The Clinton Foundation received more than \$140 million from some of the same Russian players who were involved with Uranium One. Why didn't Mueller stop the deal? Shipp says, "Mueller is either a complete moron, which he is not, or he overlooked the biggest counterterrorism cases in U.S. history. It involved Hillary Clinton, the Clinton Foundation, Uranium One and, of course, the destruction of all the emails and evidence and her secret server, and on and on and on it goes, and he (Mueller) ignored it all."

How did she get away with obvious crime? Shipp says, "The most bizarre thing is the people who protected her from clear felonious activity and violations of the Espionage Act. James Clapper, Director of National Intelligence, was protecting her and leaking things to the media and lying. You had John Brennan, Director of the CIA, protecting her by starting a false investigation (on Trump) and stirring things up with this (false/unverified) dossier. You had James Comey, Director of the FBI, protecting her. . . . Then, you've got Peter Strzok protecting her, and now it appears the United Kingdom GCHQ was using NSA information to target Donald Trump and protect Hillary Clinton. You have to ask yourself what kind of power or connections does this woman have to get all of these members of the Deep State, Shadow Government to risk their own criminal penalties to protect her and try to get her elected? That is the Shadow Government. That is the Deep State. That is what is so chilling about this whole thing. . . . This is deep. This is dark. This is as dark as it gets, and this is the biggest espionage case involving government officials in the history of this country."

Shipp also points out that, this time, it will not be business as usual for the "Deep State and Shadow Government." They are going to be brought to justice because Shipp says, "indictments are coming because of Donald Trump coming into the White House from the outside. Trump cannot be bribed."
