I needn't labour the point as it's plain to see.

Now look at Trump, flanked on the right by CIA Pompeo and on the left by arch-Neoconservative Bolton -- and YOU imagine he is a real president that leads rather than takes orders from the DEEP STATE. Well, give yourselves and the world a break, because Trump is CLEARLY a captured PUPPET president, fools! His principal function is to DISTRACT from the machinations of the elite powers that work their nefarious schemes behind the scenes and in that sense Trump is THEIR perfect president.

I am now tempted to blurt, WAKE UP, MORONS! But I know it's to no avail. Every aspect and facet of the USA, including the psychologically ENSLAVED population, is entirely OWNED by the UNREPRESENTATIVE, mass murdering, CRIMINAL elites.
