

Make No Mistake, American Ruling Elites Love Trump

Hasn't anyone noticed the elitist policies of Trump? Tax cuts to large corporations, trade wars, immigration/xenophobia, sales pitches and demands to allies to buy more American made weapons of mass destruction in order for those merchants of death to realise evermore profits and dump redundant stocks, dismissing climate change and pollution regulations in order to allow companies freedom to pollute and devastate the environment, huge tax-payer grants to the military security complex while cutting social services to the bone, and on it goes. Notice how none of which policies benefit the people but sure benefit the corporate banker sector. Trump is a dream for the powers that be.

President 'fido'

However, my focus is on Trump's social attack on the people's last few remaining liberties particularly the free flow of information on the Internet, from which ALL elite parties benefit, yes, CENSORSHIP, which mega IT corporations and other private entities now implement at will. Do you imagine that Trump's ranting against "fake news" is coincidental to the new censorship, the term didn't exist until Trump brandished it repeatedly? Now think of how ALL Trump's policies and actions benefit large corporations and ruling elites. At least try and connect the very OBVIOUS dots.

Media organisations have for years been attempting to censor and filter the FREE FLOW of information on the Internet but have failed due to the public's concerns that innocuous sites would be effected, for instance, medical sites that mention would be black listed words like "vagina" or "sperm"; you would recall the initial push to utilise child porn to conveniently black list or background certain sites, which is simple if those sites use adult language or violent content, as opposed to the money-raking gratuitous sex and violence of Hollywood.

Elites were confident as they thought who would dare oppose banning child porn, to be used primarily as an excuse and convenience for censorship. Well, as we know people valued the free flow of information above that obvious excuse and the elites failed; nevertheless elites persist until they realise their plans and "FAKE NEWS," provided that excuse, which incidentally, is the life blood of the mass media; however, a clear double standard exists as clearly the mass media and Hollywood have not changed nor do they intend to change their ways, what creates enormous profits for them is never banished.

What actually exists today is eliminating what the powers 'consider' arbitrarily to be fake news -- in other words those that oppose the mainstream shaped and contorted narrative -- while of course constantly allowing vested interests to disseminate outrageous, transparent propaganda and overt lies to manage the population as THEY see fit, and to make matters worse these lies and propaganda are NOT based on verifiable, substantiated proof or facts, we now live in a world of 'alternative facts' another Trumpist creation.

Okay, before you jump in and say surely Trump "can't" be an elitist puppet, because of the Mueller probe and the terrible coverage he receives from the mass media, well really? Consider that any large probe into any lawyer would expose them as criminals, they are all BENT, as if that is a secret! Now consider how the mass media always manages to pitch to Trump supporters, while they appear to be trashing Trump himself, an odd dichotomy to say the least. The Mueller probe is a joke/CHARADE, as the NSA has possessed all the evidence, from day one of the probe, required to have Trump removed from power, but he REMAINS while the NSA has been silent as a mouse throughout the entire proceedings, give me a break!

Try to look REALITY in face and add 2+2 to get 4, not 27, Trump is effectively serving elite interests and has been almost from the day they spelled out to him, you're a gonner if you don't comply. Today most of Trump's original inner circle has been dumped along with his plans to "drain the swamp," and have been replaced with the likes of CIA Pompeo and Arch-neocon John Bolton of all people -- give me another break if you can't see the nose on your gullible, easily led, faces!

All modern American presidents serve the unrepresentative elites NOT the people, and if they refuse they are dead meat, one way or another, as the Kennedy brothers clearly prove.

Trump is nothing more than the latest American errand boy president -- now think turn-coat Obama and wake up!.

Trump will remain as president as long as is practicable for the elites that own him outright. Mueller is their effective choke-collar.
