

Unstoppable Political Sea Change in the Making

by nano *Wednesday, Aug 29 2018, 10:17pm*

international / prose / post

It is true that all western governments serve unrepresentative minority elites, politicians lie to gain power much like Trump lied about 'draining the Washington swamp' and 'jailing Hillary Clinton' for her many un-prosecuted crimes. But where does it all go after the victorious party gains office? Indeed, up the political spout, which reality has been proven in EVERY western 'democracy' time and again, and the masses are acutely aware of the fact.

Real democracy, MAJORITY RULE by representation or direct participation, seems a dream in the 21st century. However, if we take a closer look, the situation is NOT hopeless by any means. Elites armed with their powerful mis-informative and distractive media arm have merely HIJACKED democracy, it is FAR from 'dead,' it is merely in pent-up abeyance and growing more agitated daily.

Now note how the elite owned media is attacking the ONLY political leader today -- Jeremy Corbyn of the UK -- that has connected to the people's wishes and outright refuses to serve minority criminal interests. His politics is the politics of the PEOPLE and for that stance elite interests are doing everything in their media power to character assassinate Jeremy Corbyn, who poses a larger threat to elites than is superficially realised, as his possible success would ignite a political wildfire world wide, and the people would once again have representation -- restored democracies.

Now consider how elite-loving and serving Hillary Clinton of the USA, was supported to the hilt by the elite's mass media but she failed to gain office DUE to the fact that independent media, the media of choice for the people, wiped her chances off the map. However, unfortunately the two horse one stable race in the USA ensured Trump's victory; nevertheless, a startling lesson was learned, the people are able to defeat the enormous power of the mis-informative, mass media/propaganda apparatus, which is now a proven FACT. Hence what we have seen since Hillary's SLAUGHTER by the PEOPLE -- foremost of whom is Julian Assange -- is a major push by elite interests to STIFLE/CENSOR the public voice with all manner of absurd arbitrary mechanisms, blackmail, intimidation and EXCUSES. Clearly, elites understand the threat to their long-held rule, people unconsciously and consciously have REJECTED UNREPRESENTATIVE, duplicitous, LYING politicians that serve elite interests.

It is clear today that the masses have had enough of FAKE DEMOCRACY and that REALITY is NOT 'FAKE NEWS,' substantiated by the REPRESSIVE actions of the nefarious ELITES themselves that now actively pursue every means possible to STIFLE the PEOPLE'S FREE VOICE on the Internet!

However, their OBVIOUS plans to CENSOR opposing voices/narratives have only met with marginal success as backgrounded web sites have resorted to other more direct means of disseminating information, including by appealing to readers to assist in dissemination, which works effectively like this: one reader has at least two friends which they pass linked information to and on it GOES EXPONENTIALLY, which direct means of communication is impossible to censor or stem without creating a HUGE, negative backlash/reaction from the public.

So what do all these events highlight? Massive disillusionment and the huge desire of the people for

REAL change, as clearly, the existing political status quo has long since passed its use-by date and its now infected gangrenous body is on the nose.

I need not emphasise the FACT that any political leader that has integrity has an overwhelming immediate resource at their finger-tips, the HUGE, ANGRY, DISILLUSIONED MASSES BEGGING FOR R-E-A-L CHANGE and REPRESENTATION.

With EXISTING conditions and odds as they are today, it's a wonder that any real politician would continue to support minority elites in any regard whatsoever, CLEARLY their days are numbered. And if this sea-change doesn't occur tomorrow then it would occur the 'day' after, as its progress is simply UNSTOPPABLE.
