In view of the extremely damning conclusions of the [CIA](#), puppet to the ruling plutocracy, Donald J Trump, has now declared that HE as president of nothing, would not hold the Saudi Royals responsible for the horrific murder, though the CIA and Turkey holds a contrary view based on hard evidence.

It is an interesting outcome as it is known the CIA also serves the 'deep state.' However, given the opportunity that Trump had/has to freeze the finances of Saudi Royals and pursue JUSTICE in the case via an open murder trial in an appropriate jurisdiction, and there are many, his current behaviour would seem to suggest that the powers consider replacing the despotic, mass murdering House of Saud with other local forces, a 'too hard' problem, notwithstanding that removing the House of Saud and freezing their finances, benefits the entire region and WORLD, as it is well KNOWN today that the Saudis support ISIS and most other Jihadi groups, which are also utilised by the USA in its wars of resource theft in various North African and Middle Eastern nations.

Well, the problem for the plutocratic corporate/banking powers that rule/own Washington is that they have openly opposed the CIA and directed Trump to exonerate or overlook the guilt of Prince Salman by not pursuing the case and placing him on trial. In other words, foul MURDER is OK if you remain on your knees and cooperate with the American deep state -- and a high percentage of the American public continues to believe in the fictitious values the USA presents to the world.

Puppet extraordinaire Trump has openly trashed any such delusions and has thereby made the USA accessories after the fact, in the horrid Murder of journalist, Jamal Khashoggi -- chew on those facts for a while, dreamboat doodle dandies that imagine Trump leads the nation.

It appears that the arrogance of the CRIMINAL ELITES now has reached such levels that they feel confident to OPENLY support murdering state leaders and regimes, which makes every war fought by the USA since 9/11, a HUGE LIE. The result of course is that US credibility is now in the gutter, tattered beyond repair, failing a people's revolution to restore government and the Republic.

Clearly we have two criminal regimes, US and Saudi openly cooperating while flouting the LAW and justice in this case, and there is no running from the damning FACTS, compromising recordings included, as presented by Turkey and the CIA.

So doodle dandies, suck on reality for a while, it may do you good and help restore your spines regarding your CLEARLY failed Republic/democracy. Today Trump has CONFIRMED that you are no more free than battery swine produced as a food resource -- land of the FREE and home of the BRAVE, my arse!
