2019 promises MORE WAR if we allow the nutters in Washington to continue pursuing their permanent WAR doctrine -- enough of this MADNESS, it's TIME to put an END to this WAR doctrine MADNESS and restore our nations to SANITY.

It's time for a bloodless coup in Washington -- no-one in their right mind wants war and the social horrors and deprivations which result from supporting this CRAZY war machine and the blood-sucking CORPORATIONS that PROFIT therefrom. I dunno about you but I and the vast majority are SANE, and we are sick to death of useless failed WARS.

Now let's take a look at the FOREST NOT the fuckin' trees which the media delights in focusing on. The MAIN ISSUE TODAY is pollution induced climate catastrophe -- that is the MAIN ISSUE NOT useless, counter-productive WARS, which destroy entire nations so fat cats can make a profit -- WELL, FUCK THAT for a tragic joke! How the FUCK did the WORLD arrive at this HORROR SHOW?

The entire WORLD has been DEGRADED by pursuing UNNECESSARY FAILED WARS; living standards for the vast majority have gone through the floor, jobs have evaporated due to profit seeking corporations offshoring jobs; what money is left in treasuries is wasted on counter-productive 'defense' spending, almost a \$trillion in the USA!! And these realities, FOR WHAT? So corporate America and Wall Street can fill its already bloated pockets, well, the OVERWHELMING MAJORITY OF PEOPLE are sick of it. Creating bogeymen to feed this war machine is INSANITY, how many nukes do we need?? We and other nations already have enough to blow the PLANET to kingdom come, so where's the sense?? Clearly there's NONE, except perhaps in the paranoid minds of the loonies and fuckwits like Bolton and Pompeo in Washington that see enemies everywhere, when all they really NEED is MEDICATION, not more fuckin weapons!

Well enough is enough, if Washington doesn't come to its senses then a full-on bloodless coup is WARRANTED to RESTORE SANITY to the WORLD. IT'S either THAT or we ALL go down the plughole, FACT!
