

## **Spying and Interference from Foreign Intelligence Agencies in Oz**

by smiley *Friday, Jun 8 2018, 10:36pm*

international / prose / post

The 'sitting' conservative government of Australia is laying eggs at the moment over an overblown or misplaced threat from foreign nations regarding its hopeless security, national and private.

### ***Useless, supercilious prick PM, Malcolm Turnbull***

The media hysteria centres around China of course, as it's America's adversary while China remains Australia's most critical economic trading partner, which if it chose could devastate the Oz economy at will.

Now it's not a bad thing that the drongos responsible for the nation's security have finally woken up to the prevailing threats and have decided to actually DO SOMETHING about it.

So we should EXPECT the most sophisticated spy installations to be shut down shortly, I refer of course to PINE GAP and the North West shelf AMERICAN spy installations, which nation was responsible for ousting a democratically elected AUSTRALIAN prime minister, Gough Whitlam, yes, foreign interference is REAL but the most dangerous threat is American as they stop at nothing to ensure that Oz remains a now foreign military occupied servile, vassal state; whereas Chinese spying is not concerned with colonising or invading other nations to steal their resources, its interests are primarily orientated toward self-preservation and economic matters, but not aggression as clearly are America's.

The above stated for anyone to verify and confirm, I now ask, what about it conservative dunces, are you ready to close down the spy installations of the most interfering foreign nation/threat? Not likely, as a lackey is as a lackey does.

Now fellow Aussies you would all note how the mass media is engaged in a major distraction and scapegoat campaign directed at China, believe it at your own risk as CLEARLY AMERICA is Australia's greatest spying THREAT -- FACT!

I conclude this piece with a reference to a pathetic mass media piece today of a Chinese "spy ship" docking in Fiji along side an Australian navy vessel, wow, what a scandal! Give Aussie awareness

and intelligence more credit mass media, and remember the most dangerous threat to WORLD PEACE is from from the belligerent, civilian killing, moronic USA and its well known IMBECILE and extremely dangerous ignorant lackey leader, Donald Trump.

In conclusion I ask how many nations has China invaded utilising heinous lies, pretexts and false flags, resulting in the deaths, maiming and displacement of tens of millions of INNOCENT PEOPLE since the turn of the century? Answer, NONE! Now count the many sovereign nations ruined by AMERICAN military aggression and resource theft -- and you drongos IMAGINE China is the threat. Maybe we are as stupid as the moronic American population, after all. And never forget that the mass media is now a managed private entity pursuing the interests of those plutocrats and their partners, that OWN it.

If Australia is really serious about eliminating foreign spying then Pine Gap and other American spying installations should be up for review -- consider the absurd arrangement today, Australian governments are banned from inspecting and participating in intelligence gathering on these bases on OUR SOIL -- OUTRAGEOUS!

At the very least, even for servile, lackey, USELESS Oz governments, AUSTRALIA must INSIST on internal active participation with these agencies -- either that or shut them down as Australia receives no real benefits from America's interference, many illegal wars and pan-surveillance/spying (on everyone) from installations on Australian SOVEREIGN SOIL. Which begs the question, do our governments lack spine when dealing with known aggressive, mass murdering bullies? You bet they do, all Oz governments really know how to do effectively is KNEE WALK, easily verified and CONFIRMED since the CIA arranged the downfall of Gough Whitlam.

Yes, that event was before your time millennials so pull your spoiled thumbs out of your useless arses and look it up.

Have we got it now, you beer swilling, wine imbibing, Australian media-led, dummies?
