international / prose / post

If you live in a society in which you are under constant monitoring and surveillance and your privacy is lost that is NOT a free 'democratic' State, it's a big brother, totalitarian State/society.

If you live in a nation that must militarily invade, conquer and exploit weaker nations, you live in an Imperialist State not a free democratic Republic able to stand in its own right and trade fairly with others. And as history has taught us, ALL Imperial States based on military might fail due to massive opposition from other states, overreach and the exhaustion of available funds to support the huge expense of militaristic Imperialism -- America has already succumbed to these two major threats -- in other words it's all down hill from here.

If you live in a State which government is able to be bought and thoroughly corrupted by money, that is NOT a representative ("of the people") democracy, its a plutocracy or oligarchy run by unrepresentative wealthy but cowardly interests.

If your media has been taken over by vested interests that disseminate lies and propaganda to serve elite minorities not the nation or people, you live in deceit and fantasy. The real world usually awakens these States with shock treatment as happened in the 20th century, when States that employed these approaches were internally weakened and externally felled by other States that live in REALITY, not an American DREAM WORLD.

If you live in a State where the gap between the rich and poor is so wide it cannot be breached, you live in a slave State on subsistence levels only -- masters need their exploited slaves to do ALL the work and so allow for the cost of basic needs.

I could go on but enough said to awaken the duped and cowardly American masses; REAL freedom is EARNED and REPRESENTATIVE democracy is a participatory constant process, so where are you? You have no excuses, either eat shit and learn to like it, or REFORM your thoroughly corrupt, UNFAIR society -- it's been done before, numerous times throughout history, so again, where are you, America?

If you are unable to rally in unity and remedy the above and other huge social problems, YOU DESERVE WHAT YOU GET!
