

Western 'Democracies' are a Farce

Very few people in the west labour under the old misapprehension that their sell-out political leaders represent them. Indeed, the opposite is true, one of the world's richest companies Amazon, paid ZERO tax in 2018, think about that while you, average citizens, are slugged with an average of 30% tax rate. So is this GROSS unfairness a fluke or anomaly? Not on your life, it is the way of today's world, a world that has abandoned, fairness, JUSTICE and its people in favour of minority, unrepresentative, criminal elites.

Mike 'smiling assassin' Baird

Consider 'democratic' elections where money, media and underhand favours work together to install elite lackeys that always serve their masters not the people. This is no theory as the entire WORLD is aware of the nasty reality of CORRUPTION and bought career politicians.

Also, how is it possible to obtain REAL representative leaders if only two major parties vie for power, they are too easily bought by the nefarious, tax avoiding, filthy rich?

Today we live in plutocracies NOT democracies, PLAIN TO SEE, yet we possess the power to topple this overt corruption by simply installing our own REPRESENTATIVE leaders, true independents that cannot be bought or intimidated. A rule of thumb for ALL western so-called democracies is NEVER vote for any major party in ANY election again, as their track records, which cannot be hidden, always indicate they serve minority criminal interests.

Consider also how new sweeping laws intruding on personal privacy are abused, example, why or how did the New Zealand police and agencies fail to monitor and apprehend the Australian mass murderer before he committed his heinous insane, crime in Christchurch, notwithstanding he had a presence on social media spewing his hate ideology to the world?

You see, the reason is simple, governments LIED, as usual, about protecting the public -- surveillance laws and the data accumulated is indeed utilised by mega-IT companies for PROFIT, that is the principle use of these new laws which LYING politicians implemented for their masters, research the matter for yourselves and see who really benefits from data collection and surveillance laws then spit in the eye of any career politician you see, as they are responsible for almost all

preventable mass murders in the west.

Also consider the known FACT that Australian intel agencies and NSW police removed, almost in unison, the perpetrator of the NSW Martin Place terrorist siege from their monitoring lists two weeks before he committed his vile and violent act on the INNOCENT citizens of Sydney. WHY (?) should have been asked and answered but the question was never asked at the inquiry into the siege. The acting NSW premier and acting head of the NSW police, Mike 'the smiling assassin' Baird, quickly resigned and took a one \$million per annum job with a MAJOR corrupt (proven), Australian bank (NAB) which position was clearly to repay him for his services to the elite commercial and banking sectors; Mike Baird continues his 'employment' at that proven (by Royal Commission) corrupt bank.

We need not connect the dots, but by all means do, as it is clear as day that the entire western world is politically rigged in favour of corrupting, filthy rich elites.

Everything stated above is easily verified by research into existing records in the public domain and the blazing truth cannot be hidden or conveniently overlooked or ignored any longer.

It is OUR, citizens of the WORLD, responsibility to hold our bought and corrupt leaders accountable and to ensure that thorough investigations occur into the many tragedies and injustices that occur today in OUR WORLD; remember, though we live in FAKE democracies today, WE ARE ABLE TO MAKE THEM REAL DEMOCRACIES any time we choose, so my question to the western people of the WORLD is: IS IT TIME WE TOOK BACK OUR NATIONS and jailed the criminally corrupt FILTHY RICH that pretend to serve the people when in FACT they serve themselves. IS IT TIME?
