

Freedom - From What?

by stacey *Friday, May 31 2019, 1:10am*

international / prose / post

Have You noted that when lying politicians use the word 'freedom' it is NEVER qualified?

no-one ever asks, freedom from what? as we are LED to believe we live in a free society; so why are we easily duped by that word?

unconsciously, a slave otherwise unaware of that status understands that freedom is freedom from slavery, hence the unaware slave fills in the blanks left wanting by those that use the word for political/propaganda purposes

so let's make what is usually unconscious fully conscious by asking simple questions

Yes, I need and want freedom from low wages and exploitation
Yes, I want freedom to restore a fair and just life for me and my family

I want freedom from digital surveillance and the restoration of MY privacy
I want to express myself without the fear of being shot dead by police
or losing my job for breaching political correctness - i want freedom to express myself

I want freedom for the implanted policeman in my head,
who put him there?

we all desire freedom from an oppressive, 'democratic,' 'free' State
that sends OUR young to fight illegal mass murdering wars for the profits of the few,
Yes, I want my freedom, I know what that word means to ME

however, the above outcries are not heard as they are not articulated but are loud
in the deep recesses of our repressed minds

so we always qualify freedom based on our need to be free from the oppression
of modern slavery - but we live in a free society, don't we? Well, NO!

so I thank you for arriving first at the reality that few are free, and we ALL
want and fervently desire REAL freedom

democracy today is a sham, personal freedom and privacy no longer exist,
we are nose-ringed by the elite-owned mass and digital media - we are indeed captured
subjects, the sleeping slaves that imagine they are free when their guts tell them

otherwise

so the next time some slap-happy FOOL liar uses that word simple ask,
FREEDOM FROM WHAT? And then give 'em heaps
