

## US Mass Media Weapon Requires Re-Load

by stella Saturday, Jun 22 2019, 9:42pm

international / prose / post

The amount of skepticism regarding the entire Iran attack story is huge if credible and relevant reports are considered. Indeed, expert analysts and other commentators are not buying the story as presented by the NYT or Trump's ridiculous claims thereafter; and as usual no substantial evidence is offered to the public to support these absurd claims. Now note that war with Iran is simply not possible due to credible overriding factors, primarily the effect it would have on the [global economy](#).

Media then becomes a matter of TRUST, and with its prior LYING history/RECORD, particularly related to the outrageous LIES of Iraqi 'WMD, anthrax' etc, the mass media is fast becoming a joke, which reality is very dangerous for the real powers that be, as clearly it was/is the mass lying media that convinced the public to allow numerous illegal wars by the USA and its vassal allies, which were completely unnecessary except for the murderous GREED of elite globalists, oligarchs and media plutocrats that run the USA and western Europe, which in essence are one united commercial force against the people of the world and peace.

Now if public TRUST is lost then a major weapon of social control, shaping the dominant cultural discourse/narrative, is lost forever, as occurred in Soviet bloc nations prior to the collapse of the USSR, and many experts are aware that one precedes the other.

And so it would appear that the arrogant US media is so full of itself and its former ability to steer the masses that it is now shooting itself in the foot. Remember, the outright LIES of Murdoch's Fox news regarding Iraq as a threat to America, bunk all of it, nonetheless Fox news, proven to have the integrity of a \$1 whore, continues to support Trump, not by accident or impartial reporting, BUT by DESIGN, of course followed by other mass media outlets, all owned by self-interested, unrepresentative plutocrats. And what are these interests, we should all ask?

Well, that should be obvious, Clearly American and western mass media outlets form a choir of singing LIARS, proven, which have a single purpose, to MAINTAIN the current, elite-serving STATUS QUO, which increases the profits of the global elites in the form of CRIMINAL rapacious, mass murdering illegal wars, which amount to resource theft NOT national security, as we are LED to believe; I mean look at the many failed attempts by the USA to steal Venezuela's oil reserves which are the largest in the world today, as one example, notwithstanding it is no coincidence that previous illegally invaded (thanks to the mass media) nations ALL had lucrative oil reserves and/or strategic importance for further EXPLOITATION of other nations' energy reserves, you see dear readers, elites want it all and care not how they get it, they have proven time and again they are lawless, as the people have never held proven KNOWN criminals or their political puppets to account.

So is it coincidence that Iran, another huge oil exporter is now targeted by the same nefarious evil forces today, not a chance! Should we therefore continue to believe in a CLEARLY PARTIAL, duplicitous mass media/propaganda apparatus? A rhetorical question as without prompting, the plutocrat owned LYING mass media is failing the INTEGRITY test before our eyes, which results in the LOSS of public TRUST/support; and once that occurs it's all but over for the criminal elites, so

MM, continue to dupe and LIE through your teeth - and note people, NOT ONCE has any substantial EVIDENCE been offered for all the MANY CLAIMS that issue like sewage from the lying mass media of today.

We've seen it all before with the propaganda apparatuses of the Nazis and Soviets, they simply pushed beyond the credible and were ignored as a result, which caused subtle but drastic social implosions, i.e, immunity to propaganda, which LED to the demise of once very powerful ruling social structures.

Once TRUST is LOST in any political system or power structure, failure inevitably follows, are you reading this Rupert, sons and the rest? Your days are clearly numbered. So tell us another one, for all the good it won't do!
