

Corruption is Legal in America

This five minute video is a must see for those that continue to labour with notions that governments represent the people -- forget it!

Napoleon once referred to "China as a sleeping giant" aware that when it awoke it would shake the world. Well, today China is wide awake and is overtaking America at speed. Now consider that China is only one nation and that a far more powerful social force exists; indeed, the masses, the people of all nations and the world.

The next GREAT awakening, if the WORLD is to survive, must surely be the last truly great awakening -- that of the PEOPLE -- which UNITED force easily overwhelms all other forces confronting it, particularly elite, minority, criminal interests that today have managed to harness the entire world to serve their perverse interests -- IT'S TIME, PEOPLE!

So what is it that prevents the great awakening today? Quite simply division and alienation, which evil minority forces continually, CONSCIOUSLY cultivate via their owned mass media in order to maintain their extremely tenuous hold on power.

Never allow anyone or thing to divide humanity racially, tribally, theologically/ideologically or by any other means, all flags are rags in other words.

Responsibility for a free mind lies with YOU and never forget that minority interests THRIVE on the 'divide and conquer' principle -- this applies to nations and PEOPLE. Now watch the mass media weave its divisive tricks and realise that it's all directed at YOU in order to maintain your slave, (media) captured status as an amenable, expendable resource.
