

9/11 and a World of Blind CONSUMERS

On the anniversary of 9/11 the alt-media has jumped into gear CREDIBLY trashing the official version with hard facts, YET AGAIN, but who is listening?

Access to alt-media news sites is diminishing by the day due to new 'voluntary' censorship implementations by Big Tech, the FCC and mega social media corporations, soon to be legislated into law by Trump and by various western State leaders that Washington controls, particularly knee-walking leaders of Australia, New Zealand and western Europe. Nevertheless, the [TRUTH is out there](#).

If any high school teacher asked their their science and social studies classes to conduct a project investigating 9/11 they would easily PROVE it was a 'false flag' attack and inside job involving Israeli Mossad, Dick Cheney, Don Rumsfeld and Zionist neocons Richard Pearle (proven Israeli spy), Paul Wolfowitz and numerous neocon others, who got their 'New Pearl Harbour' and an excuse to launch a global war on the noun 'terror,' which amounted to stealing the valuable resources, principally Oil, of weaker Middle Eastern nations, obvious.

The official government 9/11 story presided over by one Robert Mueller, yes that one, is a hoax pure and simple, 9/11 will one day be exposed as the biggest REAL conspiracy in modern history simply due to the facts supported by real evidence, nano-thermite detection, vertical collapse on footprints and visually obvious exploding demolition charges on building WTC 7, which wasn't impacted, yet it too collapsed at free fall on its footprint, give any high school science student a break! Put in the vernacular the government story is a croc of shit. However, it is BELIEVED by the majority and we should ask WHY, as believing the government story is tantamount to believing Alice in Wonderland as real.

So to the point. Capitalism and inculcated CONSUMERISM

Western populations have been trained by their cultures to passively CONSUME and believe 'news' broadcast on the mass media, which organisations once competed and had some integrity. Note the anti-Vietnam war coverage of the 60's, which led to massive world wide protests of this illegal (Gulf of Tonkin 'incident') mass murdering war and its cessation. At the same period in modern history charismatic civil rights (MLK) and political leaders (JFK) were abundant, pop stars and the lyrics of their songs swayed entire generations against the prescribed status quo and the criminal governments (Nixon, Clinton) in power. It was the then largely independent mass media that was essentially responsible for fuelling the tumult and popular social movements of the time, indeed, some world leaders were attempting to reform their societies with real democratic (majority rule) vision and inspiration, The world WAS undergoing change.

But what happened? In an unprecedented spate of clearly planned assassinations, charismatic social leaders, independent thinking politicians, AND even dissenting pop stars -- the core instigators of these social movements -- were all murdered in a very short span of time, and if you imagine this sequence was all coincidence please return to reading Alice in Wonderland.

The oligarchs, plutocrats and 'deep state' powers knee-jerked to regain control of the western world, which control they were losing at speed, their money/power was at risk hence the radical number of targeted assassinations and violent State enforcement where unarmed student protesters were shot and killed.

The nefarious ruling oligarchs and plutocrats eventually regained control, but they had learned which social mechanisms were threats to their power, and of course the media was number 1 on their list.

Very soon after this restive period the mass media became concentrated and amalgamated into huge media empires, most of which owners became members of the CFR, where THEY would decide together what 'news' was suitable for the masses. News became propaganda almost overnight and the most telling example of this information control was a BBC TV reporter [announcing](#) that WTC 7 had collapsed when it could be seen intact standing behind the reporter! How very odd, to say the least.

Was this reporter a psychic or prophet? NO! She was reading from a script like the automaton she was/is, which behaviour characterises ALL news commentators and reporters today - the privately owned, CONCENTRATED mass media public discourse and narrative is now completely managed by nefarious elites to serve their interests and deceive/exploit the masses, pure and simple - someone/group already knew that WTC 7 would go down, stinks doesn't it?

The largest disseminator of 'Fake News' is the concentrated mass media, notwithstanding the algorithmic control of the digitally enslaved millennial generations who should be the vanguard of social reform as they once were throughout GLOBAL history.

Nonetheless, ONLY the TRUTH sets us FREE, and so the existence of verifiable facts remains for anyone to research rather than blindly consume what issues like sewage from the mass and social media.

And never lose heart, big brother will NOT succeed, computer hackers have traditionally resorted to 'tunnelling' information through various internet protocols which ruling elites can not detect or do without, for instance ICMP and TCP/IP, to name only two. The prevailing hacker adage is true and real - 'whatever one person makes another can break' (or exploit) - that simple, so the flow of information cannot be prevented, however, those that broadcast this information to the public via the internet are being censored like never before, and the free availability of FACTUAL news is under severe threat. Now, we (various specialised digital elites) can never be lied to or apprehended like failed hacker Julian Assange, who [deserves](#) exactly what he gets for breaking the CARDINAL RULE of hackers, ANONYMITY!

But that doesn't solve the problem for duped consumers of deceitful, manipulative, scripted information, tailored to suit the needs of nefarious mass murdering, criminally oppressive, ruling elites. So doodles, and other brain-dead open mouthed CONSUMERS, what are YOU going to do about it - LOL?

YOU number in the billions and global ruling elites only number in the very low thousands BUT they have you nose-ringed to their lying media, the KEY to their POWER today.

You want a hint? Divide, alienate and conquer, keep divisive, false and fickle narratives flowing like liquid shit on the mass media otherwise the public might wake to the FACT they are one enslaved and exploited GROUP able to stomp on elites like the parasitic cockroaches they ARE! So make a

choice or live in total subjection and slavery, shit sandwich, anyone? You, like narcissist Assange, deserve exactly what you get if you fail to ACT for the good of ALL, you fuckin' SPINELESS, divided, LAME, mental lepers.

As for us, we couldn't give a fuck as we roam freely wherever we like in the rich fields of cyber space, which supplies every monetary and information need, though this piece is a rare outburst which we agreed should be published if for no other reason than to prove it won't be easily accessible to the public.

Have a nice enslaved day, shit eaters!
