One of the most surveilled buildings in the world is the Pentagon. YET the hundreds of cameras that RECORDED surveillance footage on that 9/11 fateful day has been confiscated by the FBI and CIA. Now, we KNOW that ample evidence of a jetliner hitting the Pentagon would have been recorded from approach to impact which it was, and that information should have been utilized to support the claim of a foreign terrorist attack, notwithstanding revealing the miraculous piloting skills of the pilot of the jetliner which allegedly impacted the Pentagon. However, no credible footage has ever been released to the public and we must ask WHY, as there would be no better evidence of a foreign terrorist attack.

To this day nothing substantial has been released by the CIA or FBI of the footage in their possession, if it still exists, which I doubt, for the OBVIOUS REASON that 9/11 was an INSIDE JOB. To disprove that almost certain deduction based on available and withheld (at the time) facts, we call upon the FBI and the CIA to prove the government story. And as a pilot I am fully aware that no jetliner pilot would have been capable of performing the feats necessary for a commercial passenger jet to strike the Pentagon at such a low altitude, a few feet from the ground. The government CLAIM is ABSOLUTE rubbish, as any honest pilot would tell you.

There exists so much scientific and witness evidence, recently on WTC 7, contrary to the government story that one wonders whether the United States water supply has been spiked.

Is it not NOW time to call the utter bullshit of the government story the fiction that it is, and DEMAND that all withheld evidence is PRODUCED and that explanations for the hard scientific evidence and reputable professional witness, firemen and police, accounts, are addressed by those nefarious evil forces in the United States that staged the entire mass murdering event of 9/11 so that the ENTIRE WORLD and the American comatosed population finally sees the hard, ugly TRUTH that their own government and agencies are responsible.

Show us the footage you confiscated, you mass murdering, TRAITOROUS bastards, or stand condemned as the evil mass murdering scum that YOU ARE!
