

## 'CIA Whistleblower' is a Contradiction in Terms Dimwitted Americans

by lex Saturday, Sep 28 2019, 11:46pm

international / prose / post

It's laughable to read the [NYT](#), allegation that the 'whistleblower' responsible for compromising leaks resulting in impeachment proceedings against Trump, is acting in the interests of the people as the entire WORLD knows the (CIA) criminal organisation very well indeed. This is NOT an exercise in protecting the public/nation, it is what it is, a PLANNED agency tactic to remove Trump from office and trash any chance he has of winning the 2020 election - plain to see if you are able to assess historical and current REALITY.

Nonetheless, the really fun part is that Trump is [hinting at the death penalty](#) for the leaker; well Donald, think twice about 'death' penalties, as we also know the CIA was heavily involved in the assassination of former president, JFK. And nothing would suit this criminal organisation more than to get the OK to remove you by their favourite means, MURDER, by various nefarious means.

Ever since the president of the NY Federal Reserve Bank, Bill Dudley, made it [plain](#) that Trump must go in the interests of the (privately owned) global economy, Trump's fate was sealed, as money rules the world not profoundly ignorant pathological liars suffering from NPD -- what a clueless twit. So who does the CIA actually work for, you mindless doodle dandies? BIG MONEY interests, NOT the people, OBVIOUS! And to quote Dudley's unusual revealing statement:

"Trump's re-election arguably presents a threat to the U.S. and global economy, to the Fed's independence and its ability to achieve its employment and inflation objectives. If the goal of monetary policy is to achieve the best long-term economic outcome, then Fed officials should consider how their decisions will affect the political outcome in 2020."

There you have it, straight from the horse's arse/mouth.

Now let's take a closer objective look at the CIA, and I [quote](#) fellow Aussie journalist, Caitlin Johnston:

"A mysterious stranger from the lying, torturing, propagandizing, drug trafficking, assassinating, coup-staging, warmongering, psychopathic CIA was working in the White House, [and] heroically provided the political/media class with politically powerful [damning] information out of the goodness of his heart, and then vanished off into the Langley sunset." [Follow above link for additional embedded information.]

What a side-splitting laugh the entire orchestrated affair presents.

Clearly, the CIA agent was instructed to character assassinate Trump and destroy his tenure as president permanently. And if Trump resists in any way, of course the JFK solution is always an option, thanks for the suggestion, Donald - LOL.

Ruling elites have clearly made THEIR decision, and doodle dreamboats have nothing to do with it as USUAL, BUT keep fixated on your mass media of choice as they are ALL privately owned, isn't that

right CFR member, Rupert Murdoch, Mark Zuckerberg, and others?

Need I continue, you brain dead, cowardly yanks? You have NEVER lived in a democracy “for the people by the people,” you are simply exploited, powerless, media-enslaved, GUTLESS sheep, RULED by brazen, mega-wealthy elites, or would you care to challenge that assertion by PROVING otherwise? Not a hope! So eat shit, and learn to like it - home of the WHAT, land of the WHAT? Look in the mirror and think again, you gutless doodle dandies. You are the laughing stock of the ENTIRE WORLD!

**At the top of the political tree they play by their own criminal rules -- NO RULES, or one rule, don't get caught! The Bidens and Trump are as GUILTY as sin.**

**Full story [here](#).**
