

## Turkey's Dastardly Plan to Release Jailed ISIS Prisoners

by stacey Friday, Oct 11 2019, 8:56pm

international / prose / post

Up to 10,000 (mainstream newswire) captured ISIS prisoners are incarcerated in Syrian Kurdistan, which prisons, under the cover of Turkey's illegal invasion of sovereign Syria, have been directly targeted by the Turks in order to free their ISIS allies. It must be remembered that Turkey assisted ISIS selling Syrian stolen OIL during its occupation of Syria prior to Russian assistance, so any notion that Turkey is not allied with ISIS is garbage. Erdogan's family directly benefited from this relationship in oil sales by allowing tanker routes from Syria into Turkey and then exporting the now laundered oil from its coastal ports to the world; \$millions in profits was going directly to ISIS leaders and Erdogan's family members - so why be shocked by these verifiable FACTS? It's the way of this thoroughly corrupt world and rotten mass media that never reports the TRUTH, only distractions, omissions and shaped 'news'.

So what will Assad and Russia do as the sold out, by America, Kurds, have already alerted the WORLD of the possibility of ten thousand ISIS fighters gaining release only to terrorise the region and world AGAIN.

Of course Erdogan would never have attempted this outrageous invasion manoeuvre without a green light from Washington, which first utilised this proxy fighting force (ISIS), supplied and equipped by the Saudis, in Libya to oust and kill Gaddafi and steal Libya for western oil interests and western bankers that coveted Gaddafi's HUGE GOLD and cash assets with which he was trying to establish a new pan-African gold based currency.

Well of course that pursuit, which threatened the primacy of the US dollar, could and would not be tolerated by those interests/families that own the largest global banks in the world, so goodbye Gaddafi, his gold, cash assets AND the once DEBT FREE Libyan nation - everything STOLEN by western interests.

Western bankers live on a parasitic debt global 'economy,' remember that the 'dollar bill' is exactly that, a bill/debt to parasitic banker interests.

So there's the real news behind the bullshit mass media news sheeple, VERIFY the ABOVE fully for yourselves - you have no idea, cos you never research or verify information, you are trained CONSUMERS and mental lepers; so continue to eat shit and learn to like it if you continue to PASSIVELY live under this outrageous gangster system. And to think that minority gangster interests currently running the world have no chance whatsoever against the (cowardly, shit eating masses) that is, if they refuse to wake up and target the REAL enemies of all societies and nations in the world today.

Now fuck off to your mass media drip feed, you useless, spineless, IGNORANT, COWARDS.
